

**Project Engineer
(Part-time)**

Position Classification: Non-union; Non-exempt

RESPONSIBILITIES

The position will require the application of engineering and management principles to support all areas of the Authority's business as a Federal and State regulated New Jersey Public Water System.

ESSENTIAL FUNCTIONS

- Examples of assignments include:
 - development of request for proposals and/or bids for consulting services, equipment purchases, contracted services, etc.;
 - proposal and bid review;
 - project management;
 - construction administration;
 - technical review of development projects;
 - capital planning and budget preparation; and
 - dam safety and operations; etc.
- Technical writing associated with the production of compliance and other types of reports, data analysis, etc.
- Fiscal tasks associated with the production of purchase requisitions, tracking expenditures on purchase orders, contract management, etc.
- Human resource tasks associated with supervision of assigned staff.
- Order equipment, supplies, etc. and manage inventories.
- Functions of this position include work assignments in the ambient atmosphere including extreme cold, hot, wet or other inclement weather conditions.
- SMCMUA, as a public entity, is responsible for protection of public health and public safety through the provision of a potable water supply where employee response is required on occasion to address emergent conditions.

- Related and other duties. This job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.
- This position may require, due to emergent conditions, including scheduled work assignments and non-scheduled emergency call-outs, on non-standard work days and/or work hours, including nights, weekends and holidays.

AUTHORITY

This position is a direct report to the Executive Director/Chief Engineer, or assigned alternate and is assigned to the Engineering Division. The position requires supervision of staff, requires interaction with the general public, vendors, consultants, contractors, and local, County, State and Federal public agency representatives. The position requires routine interaction and coordination of duties with the Administrative, Operations, Water Quality, Information Technology and Finance Divisions of the Authority.

REPORTING

This position will be assigned to work at the Authority Headquarters located at 19 Saddle Road in Cedar Knolls, New Jersey, 07927. The general assigned work hours are between 7:30 a.m. to 4:30 p.m., Monday through Friday, with a non-paid lunch break. A part-time schedule is defined with a maximum number of hours scheduled per week of less than 30 hours. The start and finish times of a work day may vary depending on Authority needs.

Office assignments will be supplemented with Authority field work activities.

QUALIFICATIONS

As a condition of employment, after an offer has been issued but before employment has commenced, the applicant must successfully complete an illegal substance test, background check, motor vehicle check and a functional capacity exam (FCE) based on the attached job specific Functional Capacity Requirements (FCR).

LICENSES AND CERTIFICATION

1. Maintenance of a New Jersey Basic Driver's License.
2. Preferred Engineer-in-Training Certification.
3. Preferred New Jersey Professional Engineer license.

EDUCATION

1. Minimum of a B.S. degree from an ABET accredited institution in civil, mechanical, chemical or environmental engineering or related discipline.

2. Obtain Microsoft Office Specialist Certifications, or approved alternate, where three (3) sequential attempts to obtain the certifications will be provided where additional attempts will require written approval of the Executive Director:
 - a. Microsoft Operating System Fundamentals, Word and Excel within six (6) months of the date of hire.
 - b. Outlook and Power Point within 12 months of the date of hire.
 - c. Additional certifications obtained as required.

SKILLS

1. Excellent comprehension, written and oral skills in English so that involved and complicated instructions and technical documents can be read, understood, produced and communicated.
2. Excellent organizational and project management skills.
3. Demonstrated proficiency in leadership skills.
4. Three (3) or more years of engineering experience in the water, wastewater or related industry.
5. Demonstrated proficiency in:
 - a. Microsoft Office applications, i.e. Word, Excel, Access and Outlook.
 - b. Engineering applications, i.e. ArcGIS, AutoCAD, hydraulic modelling, etc..
 - c. Reading, understanding and interpreting civil, instrumentation and control, electrical, mechanical and structural drawings.
6. Ability to work harmoniously with co-workers, supervisors, managers, and the public.
7. Ability to demonstrate understanding and satisfactory compliance of Authority policies, procedures, practices, processes and essential functions.
8. Maintain up-to-date skill sets to remain current with best available technologies.
9. Travel, including overnight and weekend stays, as needed to attend professional related seminars, conferences, etc. Travel may be local, regional or within the Continental US.
